

## Understand. Reconcile. Taking responsibility.

### 30 YEARS – A miracle of freedom and unity

What happened in our country 30 years ago is simply incredible. Impressive, fascinating and totally unimaginable at the time. A miracle. But many of us no longer know this history today. The East-West German wall fell and the iron curtain was opened wider - and this through candles and prayers! Many good things have happened since then but much has gone wrong and there is still a lot to be done until all our hearts are bonded together in unity.

### Experience the miracle anew

We invite you to experience this miracle and its history once again as we walk along the former divide where many died, hear stories and thank God for the freedom and unity we now have. Not only in Germany but also in Europe. It will be an adventure, together with different generations, denominations and cultures from East and West Germany and other nations. Let us pray together for peace in our future in whole Europe. In unity we all have a future together.

### Understanding, reconciliation, and responsibility

We will be praying together for reconciliation and understanding in our country and that there will be a growing sense of responsibility as a result. Be there to experience in a new way what God has done and how He still needs our prayers today to bring about change.

### Patronage in the respective German federal states by the Prime Ministers

Manuela Schwesig (Meck-Pom.)	Markus Söder (Bavaria)
Michael Kretschmer (Saxonia)	Bodo Ramelow (Thuringia)
Daniel Günther (Schl.-Hol.)	Volker Bouffier (Hesse)
Dr. Reiner Haselhoff (Saxonia-Anhalt)
